- * To what extent do you feel you live either “for the moment” or “for the future”?
- * In v1-5 what particular situation is Solomon warning his son against? What are equivalent situations today?
- * In v6-11 what do you think stops the sluggard from getting anything done? Are we the same? What makes you procrastinate and why? What would Solomon say to you?
- * In v12-19, how does the troublemaker cause problems for others? How do words matter in our relationships? How can we encourage one another with our words?
- * What difference will it make to consider the future when addressing these areas of our lives?
